

K-Love is one of the few programs that has had a POSITIVE influence on our community.

In a time where "shock" radio is becoming popular for ratings sake, K-Love is focused on

communicating strong messages, and for this our city is thankful for this. I beleive that

if K-Love is dipslace by an LPFM broadcaster, that the quality of programming would

diminish dramatically. So as a listener of this station an stations like it, I would urge

those commissioned to make the decision to thouroughly research the facts before voting. Thank You.
